HAIL TO CALIFORNIA (1907)
Clinton R. Morse

*Hail to California, Alma Mater dear
Sing the joyful chorus, Sound it far and near
Rallying 'round her banner; We will never fail
California, Alma Mater, Hail! Hail! Hail!*

RECESSIONAL

The audience is requested to remain in place until stage party and graduates have exited.

STAGE PARTY AND GRADUATES

COMMENCEMENT RECEPTION

At the conclusion of the ceremony, the audience is welcome to join their graduates at the ARC Conference Center for light refreshments and photos.

Graduate gown return is located outside of Meeting Room 1 inside the ARC Conference Center.

The Chancellor's Medal is worn at ceremonial observances as a part of the chancellor's regalia. At the center is the University of California seal. The back of the medal displays the name of the chancellor and year he or she was inaugurated.

To Degree Candidates,

Congratulations on reaching this wonderful milestone! Today is a moment to celebrate and connect with fellow classmates, families and loved ones, and feel the support from our entire UC Davis family.

When you came to UC Davis, you joined a community that's driven to make the world a better place. You understood that academics are paramount, and you discovered that the college experience is about so much more. You learned to outgrow the expected, to exceed what's needed and to do what's just. And you did it all during some of the most challenging times in recent history.

UC Davis has prepared you well for your next chapter. This campus thrives on a commitment to excellence, and our faculty sets the bar high for students. You not only met that bar, but you pushed beyond. Wherever life takes you—or wherever you take life—remember this is just the beginning of your journey.

You'll find members of our Aggie family all around the world, and I encourage you to make use of this valuable network and remain connected with our campus.

I hope you leave UC Davis with cherished memories to last a lifetime. I encourage you to keep close our values of excellence and openness to diverse perspectives and new ideas. Now is the time to grow forth and imagine what's possible, to consider how you will make an impact and contribute to the public good.

The world is waiting for you. Go Ags!

Best regards,

Gary S. May
Chancellor

SATURDAY, DECEMBER 10

*Kaitlin 'Kat' Raymond
College of Letters and Science
Psychology*

Kaitlin "Kat" Raymond graduated with honors from UC Davis in June 2022, with a Bachelor of Arts in Psychology and double minors in education and human development. Now she is continuing at UC Davis in the teaching credential program, working towards becoming a middle or high school English teacher in the next year. Throughout her four years at UC Davis, Kat pushed herself to be as involved as possible, including working 7 seven different jobs while finding her passions in research and internship opportunities. Her most fulfilling role was being a Resident Advisor in the Student Housing dorms, serving as a mentor for first year students. Kat is grateful for her friends, family, and first year residents that helped guide her through some difficult, but incredible years at UC Davis.

Dear Graduates,

This has been an incredible journey, and today we celebrate your efforts and achievements. This ceremony

The College of Letters and Science is at the heart of UC Davis' excellence as a top-ranked public university.

We seek answers, create new knowledge and break boundaries across the arts, sciences and humanities: from anthropology to art history, chemistry to communications, earth and planetary sciences to economics, psychology to performance arts. Our research drives academic excellence, both on campus and globally, providing an educational experience that prepares students from all backgrounds to find innovative solutions to society's most complex problems.

At the College of Letters and Science, we put great teaching and intellectual exchange at the top of our priorities. As the largest and most comprehensive college at UC Davis, we provide the foundation for a truly unified and distinctive liberal arts education. Additionally, 38% of our undergraduates are the first in their family to attend college.

We educate our students with a vision for the future and equip them with flexible and adaptable skills for life, and in return, our graduates are recognized as leaders and innovators.

Each year, nearly half of all UC Davis students pursue College of Letters and Science degrees in one of our 110+ majors and minors. Our students find their passion and explore their curiosity through beyond the classroom experiences, including internships, study abroad and research opportunities alongside our award-winning faculty. Our rigorous programs of study teach students to think critically and creatively across disciplines and prepare them to succeed in any career throughout their lives.

For all these reasons and more, UC Davis remains a leader in providing a world-class education to our students.

Dear graduates,

Congratulations, Class of 2022, on reaching this milestone! Your talent, drive and hard work earned this moment of extraordinary achievement.

As College of Letters and Science graduates, you are prepared with the critical thinking skills, bold curiosity and enduring strength that defines leadership. I know you will succeed — each in your own way.

As you move on to your next adventure, remember that as graduates of the College of Letters and Science, you are the next generation of leaders, entrepreneurs and innovators in the arts, humanities and sciences.

We are excited to see all you will accomplish going forward. Please keep in touch with UC Davis and our college. Remember, wherever life takes you, you will always be an Aggie!

My very best wishes for the future,

A handwritten signature in black ink, which appears to read "Estella Atekwana". The signature is written in a cursive style and is positioned above a horizontal line.

Estella Atekwana

The UC Davis College of Biological Sciences is one of only three colleges in the United States dedicated solely to the study of biological sciences. Our faculty, researchers and students explore fundamental questions about life to advance the planet's knowledge and meet the demands of the 21st century.

We strive to provide our students with a strong understanding in foundational science that supports careers in human and animal health, ecological conservation and environmental protection, food security and production, and many other disciplines across the life sciences.

THE MISSION OF THE COLLEGE IS TO:

- Create and deliver exceptional and innovative undergraduate programs in the biological sciences.
- Develop future leaders in the biological sciences through an excellent graduate and postdoctoral education.
- Foster an environment in which faculty members and students perform creative and substantial research that advances discovery in the biological sciences.
- Impact the university, the state of California, the nation and the world through service, community engagement and scientific leadership.

The College of Biological Sciences offers undergraduate majors in Biochemistry and Molecular Biology; Biological Sciences; Cell Biology; Evolution, Ecology and Biodiversity; Genetics and Genomics; Human Biology; Marine and Coastal Science; Molecular and Medical Microbiology; Neurobiology, Physiology and Behavior; and Plant Biology. Undergraduate enrollment in the college has grown to more than 6,000 students.

Dear graduates,

Congratulations, class of 2022. Today, we celebrate your many accomplishments.

Throughout your time at UC Davis, you've demonstrated the passion and curiosity that define a scientist, and those same qualities will continue to serve you well as you move into the next stage of your life. You have the power to show the world why science matters, and I know you will explore, discover, innovate and define greatness in your own way. Wherever life takes you—or wherever you take life—remember the Aggie values of service and justice.

Today though, celebrate with your families and loved ones. You deserve to take a bow and enjoy what you have achieved.

Grow forth and be great, class of 2022!

A blue-tinted handwritten signature of Mark Winey.

Mark Winey

Ph.D., Distinguished Professor

Dean of the College of Biological Sciences

The UC Davis College of Engineering creates a sustainable world through socially responsible engineering. By connecting people and technology, they solve the world's most pressing problems and create the next generation of engineering leaders and entrepreneurs.

The college's distinguished faculty, who are national and international leaders in their disciplines, teach in eight academic departments. They leverage world-class expertise to employ and develop intelligent systems and automation, tools at the nano-and-micro-scales and technologies for the greater good that will revolutionize energy systems, strengthen climate resilience, advance human health and transform mobility to bring a sustainable, healthier and more resilient world within reach. The college's strategic research vision addresses major challenges for the greater good, leaving no communities behind.

College alumni are engaged in a variety of ways that connect them to the mission. They work at a large spectrum of 500 companies, engineering design firms, software firms, major government agencies and start-up companies.

Industry and government partners support groundbreaking research and sophisticated labs at UC Davis.

As a result, students are supported as they turn their ideas into realities through university programs dedicated to fostering start-up businesses, strengthening entrepreneurial skills and harnessing technical expertise.

Together, the college's students, faculty, staff and partners are collaborating to engineer a better tomorrow and make a positive difference in the world.

Dear Students, Family and Friends,

Welcome to the 2022 Commencement for the UC Davis College of Engineering.

Today marks an important day for our students, their families, our college and the world. As an Aggie alumnus and first-generation college student, I know firsthand what this institution does for aspiring engineers, no matter their life experiences. The world needs more Aggie engineers: those who understand the essential principles of engineering and have the knowledge, passion, will and determination to address society's biggest challenges with inspiration and innovation. We are a true community of scholars.

Thank you for joining us as we celebrate the accomplishments of our graduates and the great possibilities that await their futures. I am inspired to watch them walk across the stage today, grow as engineers, and then help transform our society and planet for the better. Go Ags!
